AED

ZOLL AED 3™ BLS

Even Better Support for Professional Rescuers

Better CPR

- Better shock with only an 8-second pre-shock pause
- Improved Real CPR Help® with ZOLL's CPR Dashboard™
- Better pediatric rescue with a Child Button and CPR Uni-padz™ electrodes' pediatric-specific analysis
- Better visibility with dual orientation to lay flat or stand upright like an ALS device

Better Debriefing

- Detailed debriefing of case data using ZOLL's RescueNet® CaseReview™
- Export CPR performance data with USB or push case over WiFi

Better Data Management

- ZOLL's RescueNet CaseReview enables easy distribution of ECG data via USB or WiFi
- Collect, aggregate, manage, and interpret clinical data
- System-level analysis of clinical event data
- Fast feedback on CPR performance
