Automated External Defibrillators

When they need CPR, you need ZOLL.
Confidence that comes only from **Real CPR Help.**

AED Plus

*Step-by-step support for the entire Chain of Survival*

The ZOLL AED Plus gives even infrequent rescuers the confidence they need to help save lives. Simple audio prompts and illustrations reinforce every step in the resuscitation process.

One-piece CPR-D-padz with Real CPR Help technology makes placement of electrodes faster and more accurate.
Choosing ZOLL® for your next automated external defibrillator (AED) gives your patients yet another reason to trust you. As the brand hospitals choose most for professional defibrillators, ZOLL has earned the respect of users at every skill level. That’s because our AEDs do more than provide the most advanced defibrillation technology. The AED Plus® and the AED Pro® are the only automated external defibrillators to provide Real CPR Help® with real-time feedback on the depth and rate of chest compressions during cardiopulmonary resuscitation (CPR). In addition to audio prompts, both the AED Plus and AED Pro feature on-screen instructions, and a bar gauge that shows how deep to push in order to optimize compression depth. This is an important advancement, given the American Heart Association Guidelines and their recommendation for more frequent, higher quality compressions during CPR.

**AED Pro**

A rugged, advanced AED for professional users

The ZOLL AED Pro, whether used in a hospital or in the field, is designed to perform in any environment, and is used by all types of rescuers. With Real CPR Help and See-Thru CPR®, it provides the advanced functionality that professional rescuers and services require.
AED Plus

- Real CPR Help provides real-time feedback for depth and rate of CPR chest compressions
- Supports the entire Chain of Survival, with easy-to-understand audio prompts and illustrations
- Has lowest total cost of ownership, once installed, because CPR-D-padz and batteries last five years, if not used
- Rugged design that resists dust and direct water spray (IP55 rating)
- Powered by 10 lithium batteries available from retail stores everywhere

AED Pro

- Real CPR Help provides real-time feedback for depth and rate of CPR chest compressions
- See-Thru CPR filters CPR artifact to display patient’s underlying ECG rhythm
- Advanced capabilities, including 3-lead patient monitoring and manual override
- The only AED that has an IP55 rating for dust and water resistance and passes the 1.5-meter drop test
- Battery and electrode compatibility with ZOLL’s line of professional defibrillators
